

## MNLA VOLUNTARY WORK PROMOTES SUSTAINABILITY

# SUSTAINABLE COMMUNITY GARDEN

MNLA in combination with Josh Byrne and Associates and Satterley Property Group have recently commenced the development of the Brighton Community Garden at Brighton Estate. The voluntary project will provide an opportunity to strengthen the local Brighton community and MNLA are pleased to play a significant role in the ongoing development of the Brighton Community Garden.

Design Development of the Brighton Community Garden was recently completed following a lengthy consultation process between the design team, project manager and a voluntary Steering Committee that combined local residents and representatives from West Coast TAFE, East Butler Primary School and the City of Wanneroo.

The garden will provide residents, stakeholders, school children, TAFE students and others with the opportunity to grow and maintain a fully functioning, environmentally sustainable and exciting combination of fruits, vegetables and native plants. In addition to this, community facilities including BBQ, workshop and outdoor education facilities will also be provided for the benefit of the community.

With construction likely to commence in January/February of 2010, MNLA, JBA and Satterley Property Group look forward, with great enthusiasm, to continuing to work with the local community to bring this initial vision to reality.
